BUSINESS STRATEGIST FOR A HEALTHIER FUTURE

With over two decades in health business management, Christophe Jauquet expertly navigates the intersections of Customer Centricity, Innovation, and Future trends. He keenly tracks groundbreaking innovations, social-cultural shifts and health-related behaviours to decipher what they mean for your business strategy. Leveraging this profound understanding, Christophe has been delivering transformational keynotes since 2014, guiding the future direction of numerous business strategies in diverse sectors—from retail, beauty, and insurance to consumer goods, construction, pharmaceuticals, and tech. At the core of his vision is the belief in integrating health into every business strategy.

Christophe's influence in the field is undeniable. Not only was he quoted by **Deloitte** in their 2022 Global Life Sciences Outlook, but he was also invited to speak at the **European Parliament** and collaborated with boards of Directors from various global corporations. Beyond his keynote skills, he's recognised as the author of the trailblazing Healthusiasm books titled **"Every Business is a Health Business"** and **"The Transformational Economy"**. Meanwhile, Christophe keeps the global community on the edge of future trends with monthly podcasts, bi-weekly newsletters and weekly YouTube videos.

COMING SOON!

Driven by an unwavering belief that businesses and brands possess the potential to sculpt a healthier and happier world, Christophe remains steadfast in this mission. He is passionately dedicated to guiding industry leaders, healthcare professionals, and budding entrepreneurs towards harnessing this potential. **Join him in redefining your business strategy with a health-focused lens.**

PERSONALISED KEYNOTES

Christophe delivers a fresh, unique and much-needed perspective on general topics like healthcare, business and technology. His talks inspire companies with trends and innovations for **the Transformation Economy**, in which health and well-being are the deepest customer needs that create the ultimate value proposition: **Customer Transformations**. Christophe supports organisations from different sectors with their customer, innovation and future strategies. *(see the next pages for the different keynote topics)*

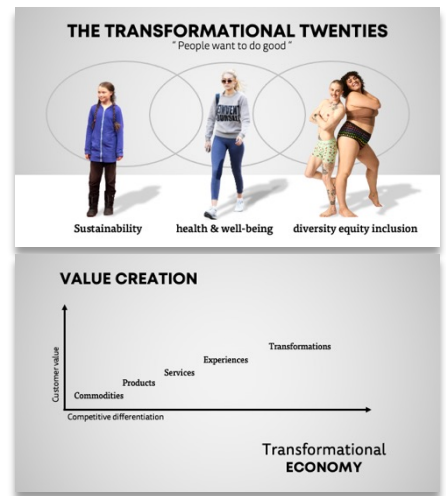

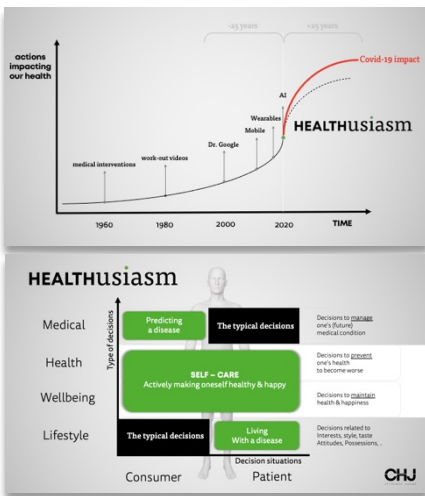

The keynotes are fast-paced, visually strong, well-crafted stories that contain eye-opening insights, recognisable, real-life examples and practical tools. **You can choose between off-the-shelf, personalised, or tailor-made talks.** This means that every keynote can be adapted to the event's specific objectives, the industry dynamics, the cultural particularities and the target group's needs..

UNIQUE PERSPECTIVES

Christophe's keynotes are centred around three essential customer insights:

1. Everybody wants to be healthy & happy = **Healthusiasm**
2. People are driven by universal human dreams and desires = **Life Aspirations**
3. There is a desire to see changes for a better world = **Customer Transformations**

PRACTICAL MODELS

TOP-TRENDING TOPICS

This page presents **the 3 most frequently requested topics** on this day (*see date in footer*). On the following 5 pages, you find a comprehensive overview of all Christophe's keynotes.

- **BEYOND ARTIFICIAL ABUNDANCE**

About being human in an artificial world of intelligence, creativity and emotions. In a world where one innovation follows another, this keynote provides an enlightening look for laymen and those already interested. It paints a clear picture of the current state of affairs.

This talk makes you think about the near future in which artificial intelligence will be woven as a fundamental layer throughout our reality, as is the case today with electricity. With numerous examples and use cases, you will discover what this will mean for people, society, technology and your business strategy. On request, the keynote can be adapted to the reality of your sector or company so that the significance of these influential changes becomes clear to management and/or employees.

- **NO HEALTHY PEOPLE ON A SICK PLANET**

About how sustainability efforts touch people emotionally. More and more people are concerned about the climate crisis. Meanwhile, companies are swallowed up by regulations imposed from above that make them focus on SDGs and ESGs. But why and how do you convey

this sustainable effort to customers? What moves them in this story, and what brings added value? In this keynote, Christophe looks at how sustainable actions can meet the expectations and aspirations that "come from below". It helps to give a human character to your sustainable initiatives by responding to what matters most to your customers.

- **REDEFINING THE FUTURE OF HEALTH & SELF-CARE**

About the health & self-care trends that truly matter.

We are bombarded with innovations, trends and new ideas, some more promising than others. Estimating how relevant these are for a sector characterised by specific challenges or regulations, like healthcare, is complicated.

In this keynote, Christophe brings inspiring, relevant scenarios that make you think about the urgent future of health & self-care. On request, this keynote can be adapted to some therapeutic areas or for specific healthcare professionals.

TRANSFORMATIONAL HEALTHCARE

Embrace new **human behaviours** and **technologies** to lead healthcare change.

Healthcare is on the eve of the most drastic, necessary and fastest change ever. It is happening now: **New technologies bring unprecedented possibilities, and people have never been so involved in their health.** But how will this manifest itself? And how do you integrate these technologies and new human behaviours into a customer strategy? In this keynote, Christophe explains how universal human aspirations to be healthy & happy will push transformations in healthcare. He also illustrates the critical role of different technologies in attaining these transformations.

He can focus on...

1. How **technology** will transform healthcare. (Artificial Intelligence, digital therapeutics, health platforms, metaverse, digital twins, omnichannel, Emotive AI, etc.)
2. How health services are turned into **patient transformations.**
3. How **self-care, wellness and health consumption** impact the healthcare industry.

➔ **Concerned topics:** Customer Experience, Omnichannel, Innovation, Future of Health

➔ **Perfect for:** Conferences, Leadership Meetings, Cycle Meetings, Client-facing events.

➔ **Global Clients:** Roche, Pfizer, Sanofi, Takeda, Merck, MSD, Haleon, GSK, Ipsen, ...

➔ **Related keynotes:**

- The Patient is no Longer Patient – *about patient centrality*
- Creating Better Health Experiences ([watch](#)) – *from services to transformations*
- The Future of Self-care ([watch](#)) – *about the Copernican Health Revolution*
- HCP Engagement – *how to create value for healthcare professionals*
- **Redefining the Future of Health & Self-care** – *the healthcare trends that matter*

TRANSFORMATIONAL BUSINESS

Help customers thrive by answering their deepest needs.

People want change. **It's no longer sufficient to do good business but your business needs to do good for customers, society and the world.** It's about creating value that meets the values of your customers. It's about meeting their deepest needs: their Life Aspirations. This means that you'll need to innovate for what matters most and turn Customer Experiences into Customer Transformations. In this keynote, Christophe will elaborate on *why* and *how* every business should pursue this ambition. He will explain **how different industries have entered the Transformational Economy** and inspire you to create Customer Transformations in your own sector so that you can contribute to the change your customers want. You will learn...

1. How to benefit from technological innovations.
2. How to contribute to individual, societal and environmental challenges.
3. How to offer what matters most to your customers.

➔ **Concerned topics:** Customer Experience, Innovation, Future Trends

➔ **Perfect for:** Conferences, Leadership Meetings, Team Meetings, Client-facing events.

➔ **Global Clients:** Unilever, Pepsi, Nestlé, NN Insurance, IQVIA, Colruyt, Proximus,...

➔ **Related keynotes:**

- Health is the Most Meaningful Consumer Value ([watch](#)) – *about consumers*
- **No Healthy People on a Sick Planet** – *how health makes sustainability tangible*
- The Transformation Economy – *from CX to Customer Transformations*
- Every Business is a Health Business – *health as engine for business growth*

TRANSFORMATIONAL TECHNOLOGY

Innovate and apply technology to what matters most to your customers and your business strategy.

It sometimes seems unreal when we think about technology's influence on our lives over the past 10-15 years. And it continues to grow exponentially. At this speed, it is challenging to keep abreast of these changes, let alone estimate their real impact tomorrow. **Typically, in the media, the impact of technology on business is often overestimated, while its broad influence on people, society and the planet is underestimated.** We need a more balanced view of the transformational power of technology to remain relevant for our customers and patients.

In these keynotes, Christophe informs the audience on...

1. what these technologies really mean for your business or healthcare.
2. how you can use technology in health and well-being
3. what influences these technologies have on our lives and society

- ➔ **Concerned topics:** Customer Transformations, Innovation, Future Trends
- ➔ **Perfect for:** Conferences, Leadership Meetings, Team Meetings, Client-facing events.
- ➔ **Global Clients:** Abbott, AG Insurance, Ageas, Viatrix, Amplifon, Metagenics, Hospitals,..
- ➔ **Related previous keynotes:**
 - **Beyond Artificial Abundance** – *how to embrace Artificial Intelligence as humans*
 - Virtual Worlds – *what are the human/business dynamics in the Metaverse*
 - Digital Humans – *about bringing back empathy to relations*
 - The Reality of Tomorrow – *an overview of technology trends that matter*

ASPIRATIONAL LIVING

NEW

Focus on what is **essential in life** to influence your health and well-being.

Each of us desires to be healthy and happy. It is easily the most essential thing in our lives. But what does 'Being Healthy and Happy' mean, and how do you 'aim' for this? People often resort to what Christophe calls the 'Wellness Bingo': exercise, sleep, nutrition and mental health. They exercise more, eat healthier and sleep more. But how do you maintain these healthy activities without concrete aspiration? What do you really want to achieve? **In this new keynote Christophe introduces you to the Life Aspirations, universal human dreams and desires in our pursuit for health and happiness.** We feel happier and healthier when our Life Aspirations are fulfilled, and completing our Life Aspirations will make us feel healthier and happier. In this interactive keynote, you learn:

1. What healthy & happy could mean for yourself and others.
2. How to get started yourself by keeping the right, achievable goals in mind.
3. How to work together as a team or company to create a better working environment?

- ➔ **Concerned topics:** Corporate Well-being, Motivational Talk
- ➔ **Perfect for:** Town Hall & Year End Meetings, Team Buildings, Well-being Sessions
- ➔ **Global Clients:** UCB, Randstad, Baloise, ...
- ➔ **Related keynotes:**
 - Employee Transformations – *how to provide a better employee experience*
 - Live life to the fullest – *why and how you can be more consciously aspirational*

HEALTHUSIASM

and other health & wellness trends

Find new business opportunities in how health trends impact every part of life.

Our health and well-being influence every aspect of our lives. But likewise, every part of our lives also impacts our health and happiness. Hence, today, we are consciously and actively involved with our health & well-being in these different parts of our lives. It means that health is no longer about not being sick but about living life to the fullest. As a result, we have the Healthusiasm to manage our health holistically, even when not ill.

In this keynote, Christophe can highlight various **trends that show how health and self-care are becoming increasingly influential parts of...**

1. **everything we do** (eating, exercising, sleeping, sex, travelling, growing old, dealing with money,...),
2. **every place we are** (our house, work, car, city, supermarket, etc.) and
3. **every object we handle** (clothing, glasses, jewellery, telephone, clock, lights, ventilation, games, etc.).

➔ **Concerned topics:** Innovation, Future Trends

➔ **Perfect for:** Conferences, Strategic Meetings, Client-facing events.

➔ **Global Clients:** Darling Ingredients, Colruyt, Global DIY Summit, Radical Health, EBBIA

➔ **Some previous keynotes:**

- Ageless Ageing – *how ageing is impacting every single business*
- Sport Innovation – *about the holistic, aspirational value of sports*
- Good Food – *there is more to eating than nourishing ourselves*
- Personal Science – *how people are actively involved in health and science*
- Financial Wellness – *not about the 'what' or 'how' but about the 'why' of money*
- The Potential of Sleep – *why sleep is more than sleeping*
- From physical places to transformative spaces – *about our homes, stores & cities*
